### **Detailed Action**

1. Claims 1-12 are presented for examination. This office action is in response to the application filed on 09/22/2003.

### ***Information Disclosure Statement***

2. Applicants are reminded of the duty to disclose information under 37 CFR 1.56.

The examiner requests, in response to this Office action, any reference(s) known to qualify as prior art under 35 U.S.C. sections 102 or 103 with respect to the invention as defined by the independent and dependent claims. That is, any prior art (including any products for sale) similar to the claimed invention that could reasonably be used in a 102 or 103 rejection. This request does not require applicant to perform a search. This request is not intended to interfere with or go beyond that required under 37 C.F.R. 1.56 or 1.105.

The request may be fulfilled by asking the attorney(s) of record handling prosecution and the inventor(s)/assignee for references qualifying as prior art. A simple statement that the query has been made and no prior art found is sufficient to fulfill the request. Otherwise, the fee and certification requirements of 37 CFR section 1.97 are waived for those documents submitted in reply to this request. This waiver extends only to those documents within the scope of this request that are included in the application's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this request and any information

disclosures beyond the scope of this are subject to the fee and certification requirements of 37 CFR section 1.97.

In the event prior art documentation is submitted, a discussion of relevant passages, figs. etc. with respect to the claims is requested. The examiner is looking for specific references to 102/103 prior art that identify independent and dependent claim limitations. Since applicant is most knowledgeable of the present invention and submitted art, his/her discussion of the reference(s) with respect to the instant claims is essential. **A response to this inquiry is greatly appreciated.**

**The examiner also requests**, in response to this Office action, support be shown for language added to any original claims on amendment and any new claims. That is, indicate support for newly added claim language by specifically pointing to page(s) and line number(s), in the specification and/or drawing figure(s). This will assist the examiner in prosecuting the application.

#### ***Information Disclosure Statement***

3. Applicants are reminded of the duty to disclose information under 37 CFR 1.56.
4. This application is in condition for allowance except for the following formal matters:

##### In the specification:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. The title should be more

specific to differentiate the invention from similar inventions in the patent literature.

“control parameter” and “locally buffered copy of table for cache allocation in a subsequent request” aspects of the invention should be mentioned in the title so that the title is more descriptive.

In the claims:

In claim 11, in line 2, it appears that “memory” should be changed to – a computer readable memory which the program when executed by a computer-- for clarity and to avoid possible USC § 101 rejection.

Appropriate correction is required.

5. Claims 1-12 are allowable over the prior art of record.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached PTO-892
7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS  
SET TO EXPIRE 2 (TWO) MONTHS FROM THE DATE OF THIS LETTER.
